

Daniel Butler

Born 03 december 1980, Norwich, England. Lives and works in Oslo, Norway.

I am most concerned with the 'idea'. Currently I develop concepts for interactive design involving: illustration, 3D design, screen design, film and motion graphics.

So far I have just a couple of years professional studio experience but I am also fresh, ambitious, and learning fast. I am assertive and methodical, delivering thorough creative solutions whilst challenging clients.
